Make Your Own Comic

Either print out the template provided or build your own from scratch.

By 'FFWIH' (@helloffwih)

Intro

Get lost in your own world of skateboarding in your own comic. You can draw your own imaginative skate park or skateboard narrative. Land that trick you always wanted to in your own comic!

Description

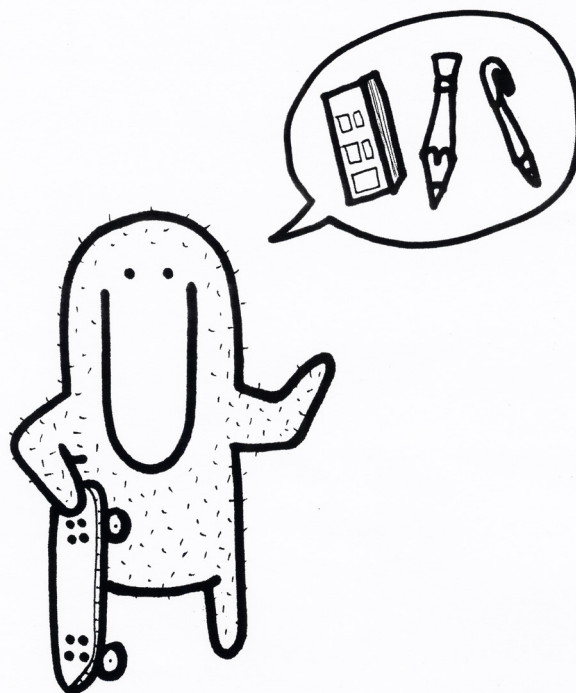

Create your own comic to swap with friends. Using our simple steps, you can start to make your own comics. Let your imagination run free. Why not add different techniques? If you don't want to draw, why not cut from magazines and stick them in? Create layers, make up your own story, use song lyrics, be playful, make a skateboard story of what you are excited to try at the skatepark.

And remember

BE SILLY

Tools

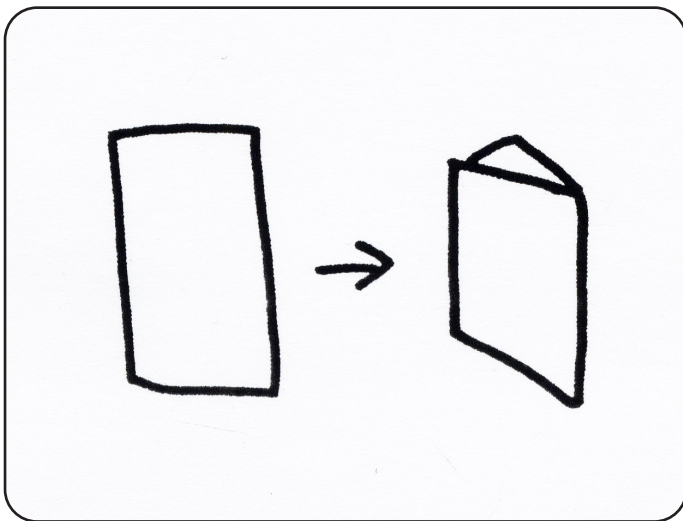

Black Pen, Paper, Colouring Pencils

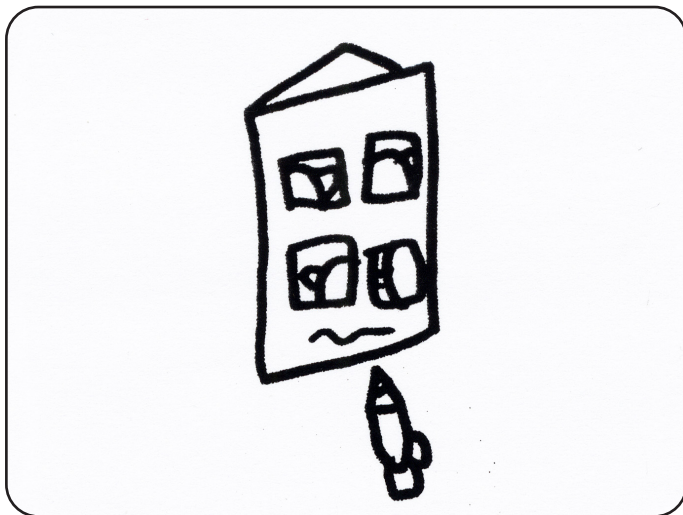

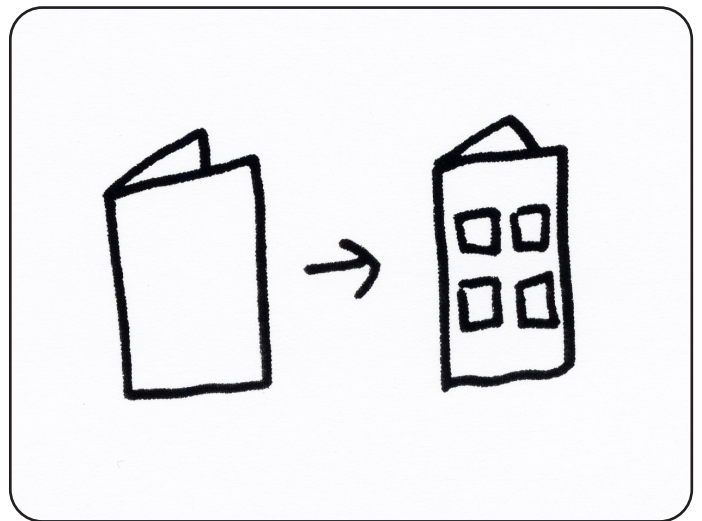

SKÄYTPÄRK

You can either print out pages and use them as a template or follow the instructions...

Step 1. Fold paper.

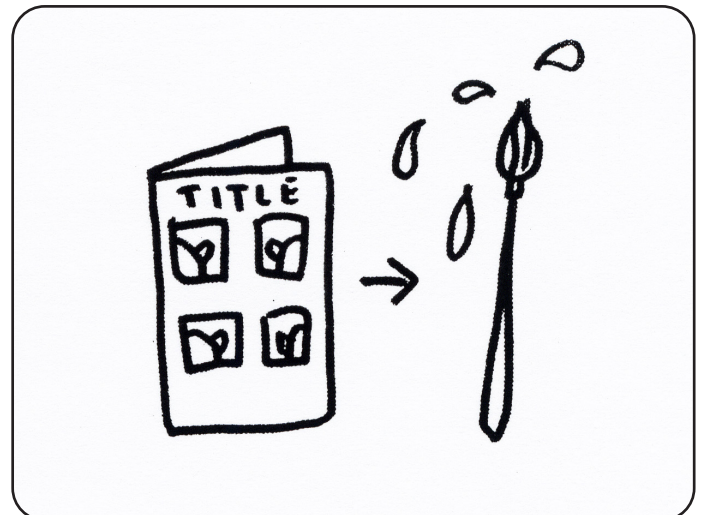

Step 2. Draw boxes and shapes as seen on template.

Step 3. Add title and start to add characters and speech bubbles as seen on template with black pen.

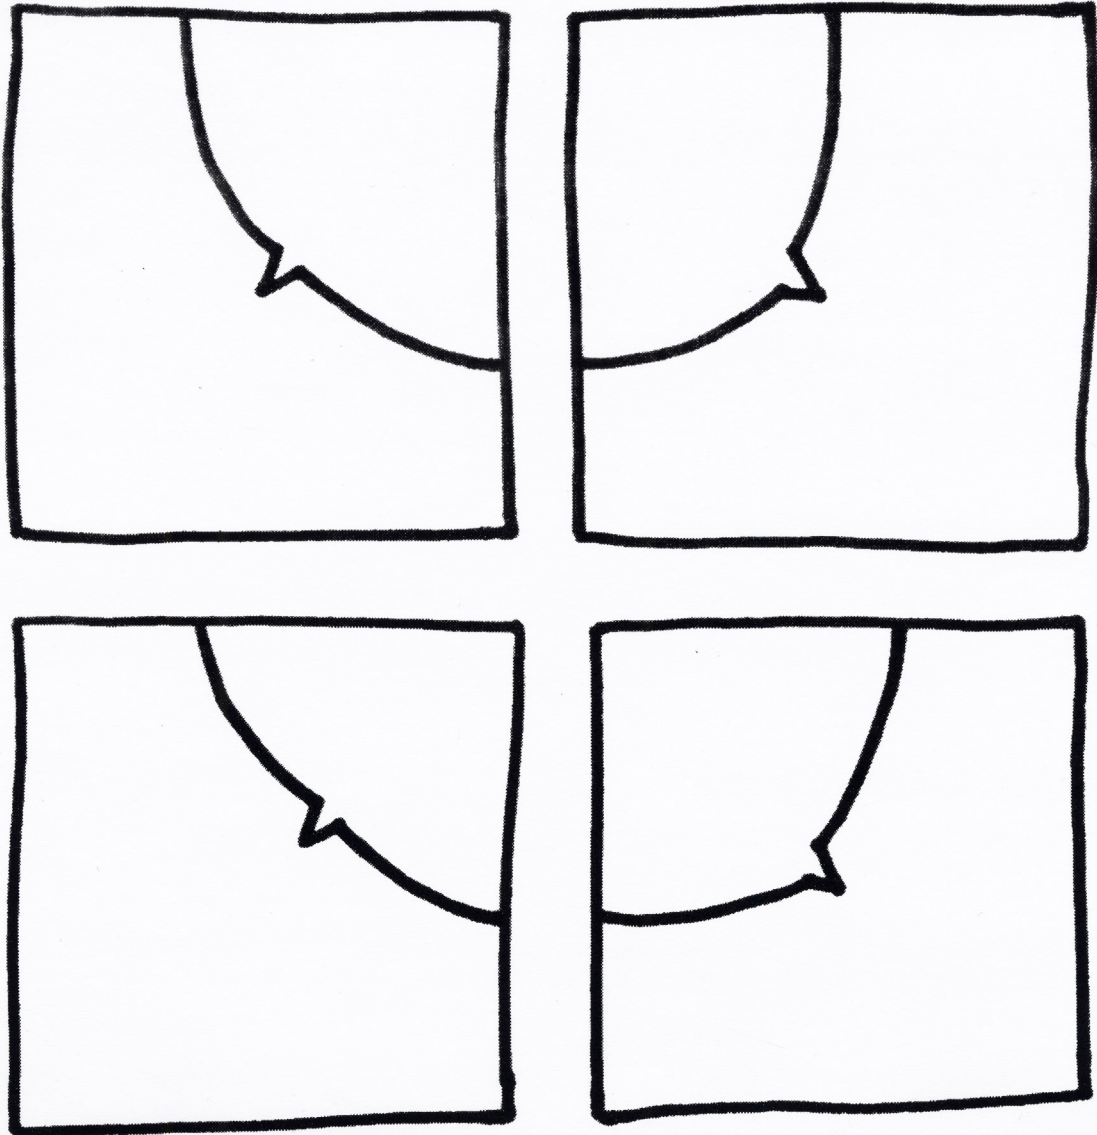

Step 4. Colour the drawings in.

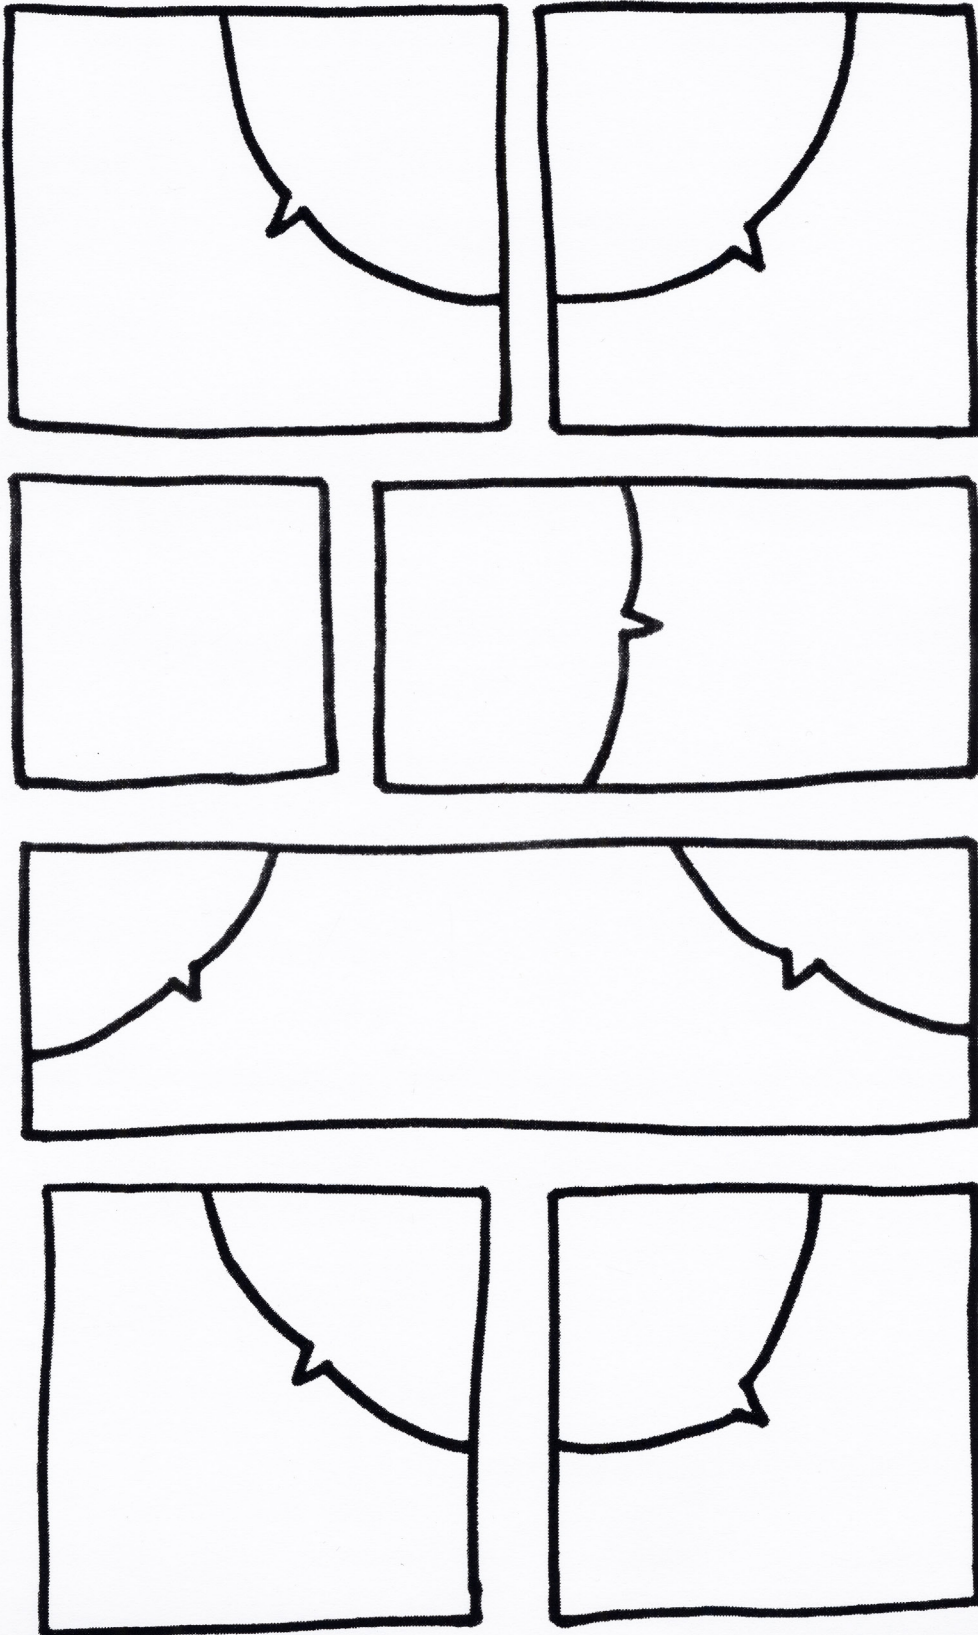

SKÄYTPÄRK

• stuck [♡] inside.

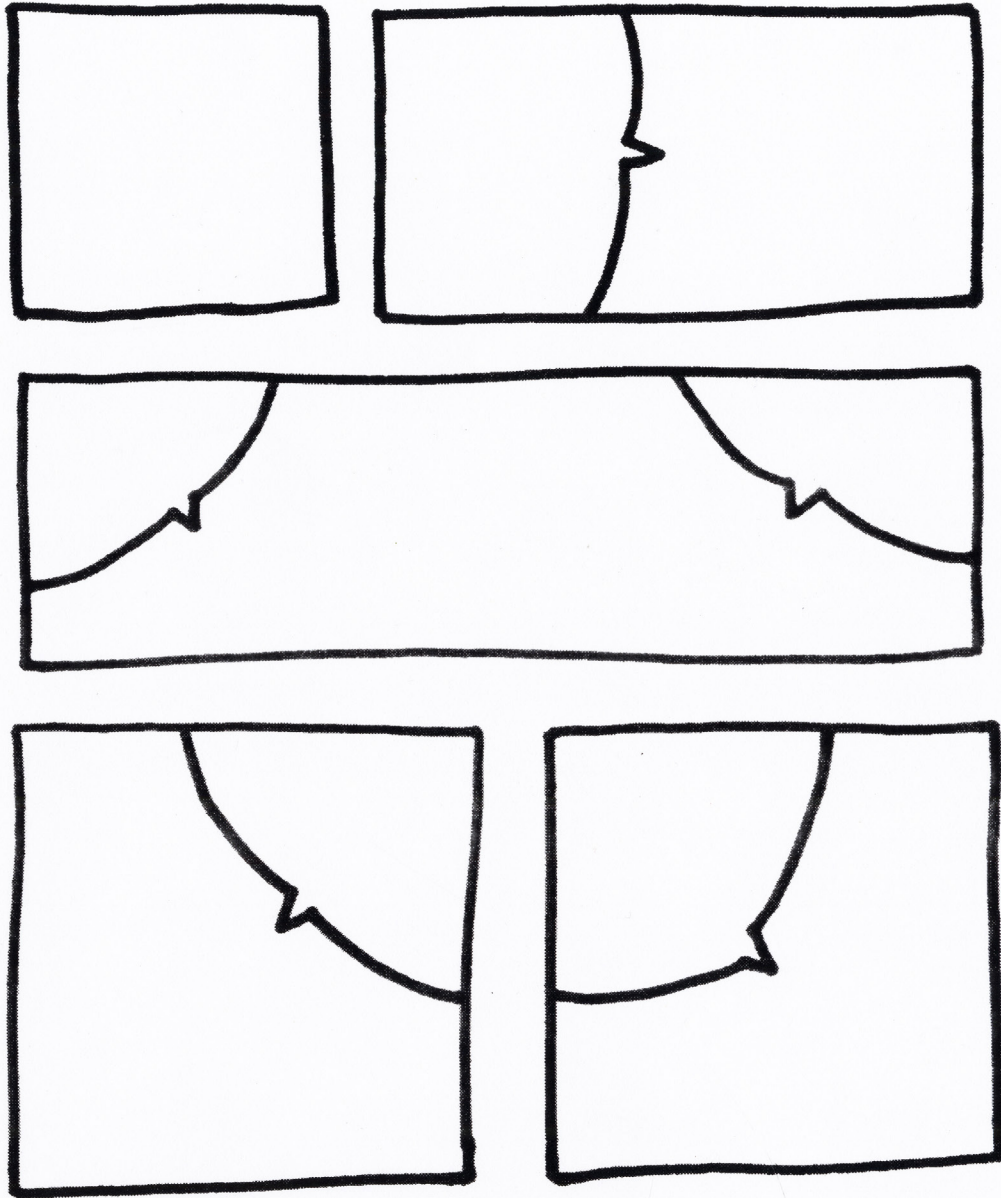

while we are all stuck inside, its a good time to be creative. why not make your own comic or colour the drawings?
